Subject: The 5th Wheel for the RD Board

If you want a compromise candidate for the RD Board, then Dale is your woman. Rusty had barely 20% in his last election and that was after people witnessed his term on the Board! Dale, in the election in which she ran, had some 40% of the vote. The majority around here, the Club social members, will be very pleased to have a someone representing them. Dale well knows the fitness needs of the Club which will be a key issue before you all. She will do her homework and be prepared in ways that Rusty was not when he served on the Board. (If you're not aware of this, please check with former board members or other RD groupies.) She is very bright, has common sense and will be a good team player. As well, you guys could use a good woman to add some balance!

Please get us back to the special place we have thought of UP the past many years. Please do NOT go corporate. Please!
