Subject: Moving forward

Good afternoon,

It has come to my attention that the RD Board and/or UPCA or PBM are considering hiring a country club/golf management company. I think this is a terrible idea. Besides the company maximizing their profits at our expense, similar actions by neighboring clubs have been a disaster, I understand that the members and homeowners do not make this decision. I would hope that the RD would conduct a Monkey survey to obtain input from members.

Best regards,

Dr Carroll
