Subject: Membership Fees

Gentlemen,

I read in the minutes that the 2027 fees will increase by 6%. I have a concern with the Social membership fees. Last year I wrote to John Fetsick complaining about the fact that resident Social members pay the same amount as nonresident Social members. He responded with, what I call, a poor reason.

Golf membership for residents is lower than for Golf nonresidents. The same goes for Raquet members. In the 9 years I have lived here, the Social residents paid less than nonresidents. Will this go back to the original way or will resident Social members be paying the same as nonresident Social members.

It is totally unfair for a resident to be paying the same as a nonresident. We are paying for the first bond, and we will be paying for the second soon to be bond. Why should a nonresident get away with having the same advantages as a resident and not pay a thing?

Thank you.
